

Nystrom Billing Policies and Consent for the Release of Records

If you plan to submit your own claims to your insurance company, it is our policy that payment of the entire fee is due at the time of service. As a service to our patients, Nystrom & Associates (Nystrom) staff will submit your insurance claims. If you fail to provide active insurance information in a timely manner you will be held liable for this. Co-payments are due at the time of service. Deductibles and coinsurances will be billed to your account. In the event the undersigned is entitled to health insurance benefits of any type, insuring patient or any other party liable to the patient, their benefits are hereby assigned to this health care facility for application to the patient's account.

Billing & Payments

By signing, you authorize Nystrom to release information, including medical records, to your insurance company or the designee of your third party payer (authorized agent) as may be necessary to determine benefits, process and pay health care claims, and perform quality of care reviews at Nystrom. Nystrom will submit charges to your insurance company whenever possible for services rendered. Payments will be applied to the oldest charge on your account. Charges are based on what occurs during your treatment with Nystrom. Charges associated with your appointment depend on your individual medical necessity and level of care, as determined by your treating provider.

Time billed for court appearances, court case review, report writing, letters, telephone consultation, and other charges excluded by insurance coverage are your responsibility. Charges vary based on time spent and type of service.

A service charge of 1.5% (18% annual rate), or the highest statutory amount allowed, whichever is higher, will be charged monthly on accounts past due 28 days. If payment from insurance is not received within 90 days the account may be due and payable in full by the patient. An account 90 days past due will be subject to collection procedures and/or small claims court, and the patient agrees to be held responsible for the cost disbursement, including reasonable attorneys, collection, and court fees. Nystrom may use the information listed below to contact you regarding your account. There is a fee of \$30 for checks returned for insufficient funds. **Patients seen in Minnesota only:** Minnesota Care Tax will be added where applicable, and you agree to be held responsible for these fees.

Insurance Coverage

Nystrom can make no guarantee that your insurance company will provide payment for services rendered. It is your responsibility to know what is and is not covered under your policy. You are responsible for the full amount of the charge, whether or not your insurance will cover any portion. If your insurance company requires preauthorization of services you are responsible to info rm us. Be aware that some insurance companies have an annual maximum benefit for outpatient mental health coverage.

Cancellations

Nystrom requires a 24-hour notice when cancelling an appointment. This will allow us to schedule the time for someone else. Please note: IF YOU DO NOT ATTEND A SCHEDULED APPOINTMENT OR CANCEL WITH LESS THAN 24-HOUR NOTICE, YOU WILL BE CHARGED A FEE THAT CORRESPONDS TO THE SCHEDULED LENGTH OF YOUR SESSION. Your insurance cannot be billed for missed appointments. At the discretion of Nystrom your services may be discontinued due to excessive failed appointments or late cancels.

Financially Responsible Party

The parent or guardian who signs this agreement will be considered the responsible party and will receive all billing statements and letters. Any alternative financial arrangements, including court-ordered financial arrangements, must be worked out between the parents or guardian of the children outside of this agreement.

Unclaimed Refunds

Please remember to read your invoices carefully and call us if you have any questions, especially if you believe there is a credit on your account. If Nystrom confirms that it owes you or your payer a credit refund, it will resolve that promptly. After 120 days, if a credit of less than \$25 remains on the account, and no credit refund has been requested it will be removed from the account. If Nystrom determines that it owes you a credit refund but cannot locate you, then Nystrom will file an Unclaimed Property Report with the State. The State publishes those Reports to alert the public that Nystrom owes you money that you have not yet claimed. The State typically publishes your name, your address, the amount unclaimed, and the identity of who owes you the money, which would be Nystrom and Associates.

Involuntary Discharge

There are certain circumstances in which Nystrom can involuntarily discharge a patient from services. These circumstances include but are not limited to: abusing or selling prescription medications, obtaining similar medications from alternate providers, non-disclosure of regularly prescribed controlled medications, refusal to sign requested releases or attestation forms, threatening behavior towards staff or other patients, threatening litigation toward Nystrom or a Nystrom provider, and inability to pay for services (entering into collections process).

Attestation for Consent

Release of Information for Coordination of Care/Treatment, Operations, and/or Payment of Service

By signing, you authorize Nystrom to disclose your behavioral health records to your primary care provider for the purpose of coordinating care for best treatment outcomes. This consent will remain in effect until you cancel it in writing to Nystrom. In addition, you authorize Nystrom to disclose your behavioral health records and substance use disorder (SUD) records to other Nystrom providers, including providers at Nystrom Residential Treatment LLC, Life Works, Psychiatric Associates and Sandhill for purposes of treatment coordination and care.

By signing, I understand my mental health and/or substance use disorder records may be disclosed for treatment, payment, or operations. I understand my records may be re-disclosed as provided by regulations. I understand my substance use disorder records may not be re-disclosed for use in civil or criminal proceedings without expressed written consent or a valid court order.

Case Management Only:

By signing, I understand that my mental health and/or substance use disorder records may be shared through the Collective Network for care coordination. I understand that I am authorizing Nystrom & Associates to receive and/or disclose protected health information for treatment and care coordination. I understand I can opt out of the Collective Network at any time by contacting my case management team.

Electronic Signature

By signing, you understand that this becomes your electronic signature for the following forms: Initial Treatment Plan, Updated Treatment Plans, and the DBT Agreement Form. The provider will ask for your verbal consent after reviewing the forms with you.

Do you have a legal guardian for healthcare decision making? If yes, your legal guardian must sign this document and provide guardianship paperwork prior to your appointment.

Communication from Nystrom about Your Care

By signing, you authorize Nystrom to contact you via mailed correspondence, phone, text message, or email regarding your payment, treatment, and healthcare operations. Nystrom is not financially liable for any charges you incur from your service provider. By supplying your home phone number, mobile number, email address, and any other personal contact information, you authorize Nystrom and your healthcare provider, or a business associate of theirs, to contact you at any numbers or email addresses using an automatic telephone dialing system, using a pre-recorded voice or other third-party automated outreach and messaging system as well as to use your protected health information, or other personal or identifying information, during such contact for any administrative or health matter. You consent to the practice, your provider, or their business associate contacting you via unencrypted email and text messages. You also agree that they may leave detailed messages on your voice mail, answering system, or with another individual, if you are unavailable at the number provided.

Notice of Privacy Practices

By signing, you acknowledge that Nystrom's HIPAA Notice of Privacy Practices and Patient or Consumer Rights Handout, procedures for reporting alleged violations of patient's rights and grievance procedures have been made available to you. This agreement may not be altered in any way. I have read and agree to the above and hereby guarantee payment of all charges for services with the financial arrangements of Nystrom.

Buprenorphine Treatment Agreement

General Information about Risks and Treatment Options:

Buprenorphine is a potent medication and dangerous when a person does not have a tolerance for opioids. When a person takes buprenorphine without taking opiates or buprenorphine regularly, death may be a result. Risk, including death, may occur from combining buprenorphine with alcohol and other drugs like opiates and benzodiazepines (such as Valium, Klonopin, Ativan, Xanax). There is no fixed time for being on buprenorphine and that the goal of treatment is for to stop using all illicit drugs and become successful in all aspects of my life.

Risks & Benefits

- 1. The risks and benefits of buprenorphine treatment, as well as other treatment options (methadone, naltrexone, non-medication treatment options) have been explained to me.
- 2. I have been educated about the risks of overdose and death if I relapse on opioids. I understand that toddlers and adolescents have died from accidental exposure to buprenorphine. I have also been educated about the risks of fentanyl use and the potential for fentanyl occurring in illicit drugs.
- 3. I understand that I may experience opioid withdrawal symptoms when I stop takingbuprenorphine.
- 4. If female, I have been educated on the following:
 - a. There is an increased chance of pregnancy when stopping illicit opioid use and starting buprenorphine treatment. I agree to discuss pregnancy prevention methods with my OB/GYN or PCP.
 - b. Neonatal abstinence syndrome (NAS) can occur when taking illicit opioids and that NAS is less severe, but can still occur, when pregnant women take methadone or buprenorphine as prescribed/dispensed in substance use disorder treatment.

Appointments:

- 1. I understand I must be on time for appointments, including arriving before the scheduled appointment to allow time to collect and process the drug screen and complete paperwork. I understand that if I miss an appointment, medications will not be refilled until an appointment is scheduled and a drug screen has been submitted for review.
- 2. I understand that initially I will have weekly office visits and that the length between office visits will be increased at the discretion of my provider in consultation with me. I understand that I will be allotted 7 days of medication or enough medication to last until the next scheduled office visit. I understand my medication must last as prescribed.
- 3. I understand I may be required to default back to weekly visits if I have unexpected drugs in my drug screen sample, and that persistent drug use or arriving to the office intoxicated will result in a referral to a higher level of care.
- 4. I understand that random drug screening is a treatment requirement. If I do not provide a requested sample/refuse a drug screen, it will count as a positive drug test. I understand I must provide a requested sample by the close of business the next day. I understand that I can be called in for a pill or film count at any time. I understand I must bring my buprenorphine to my provider's office by 3:00 PM, within 1 business day of the request.
- 5. I understand that violence, threatening language, threatening behavior, or participation in any illegal activity will result in discharge from treatment. I agree to be respectful to my provider, office staff, and other patients at all times.

6. I understand that treatment of opioid use disorder involves more than just taking medication. I understand that I will be expected to participate in Nystrom & Associates, Ltd. Intensive Outpatient Program (IOP) and follow recommendations of my Substance Use Disorder (SUD) counselor as well. I agree to comply with my healthcare provider's recommendations for additional counseling and/or for help with other problems.

Expectations:

PRINTED NAME OF PATIENT

SIGNATURE OF PATIENT

PROVIDER SIGNATURE

1. I will take the medication exactly as my healthcare provider prescribes. If I want to change my medication dose, I will speak with my healthcare provider first. Taking more medication than my healthcare provider prescribes is medication misuse. Snorting or injecting is also considered misuse. If this occurs I willbe referred to a higher level care or change in medication based on my healthcare provider's evaluation. 2. I will keep my medication in a safe, secure place away from children (in a lockbox). Describe where and how you will store your medication: _ 3. I understand that if medication is lost, stolen or misplaced it may not be replaced. 4. I understand that it's illegal to give away or sell my medication; this is diversion. If this is suspected or occurs, I understand that my prescription for buprenorphine will no longer be provided and alternate medications or a higher level of care will be recommended. 5. I agree that I will keep my healthcare provider informed of all my prescribed or over-the-counter medication use (including herbs, vitamins or other supplements) along with any medical problems. 6. I agree not to obtain prescription controlled substances and/or medical marijuana. Controlled substances include opiates, benzodiazepines, stimulants, gabapentin and Lyrica. I will ask my heath care provider before starting any new medication (prescribed or purchased over-the-counter) as failing to do so could jeopardize my participation buprenorphine treatment. I am aware that many CBD products have trace amounts of THC and can affect drug screen results. I will discuss with my provider if I am considering taking CBDproducts. 7. I understand that if I am going to have a medical procedure that will cause pain, I will let my heath care provider know in advance so that my pain is adequately treated and the risk of relapse is reduced. 8. Other Specific items unique to my treatmentinclude: _ I have read and agree to the above statements. I attest that I will comply with the requirements outlined in this document as well as the treatment recommendations of my healthcare provider.

PATIENT DATE OF BIRTH

DATE

Thank you for choosing us for your care, it is important for you to read each of the following statements carefully. If you have any questions about the items below, please discuss them with your new provider at your appointment.

General:

- You are consenting to be evaluated and undergo possible medication treatment for your mental illness. Medication
 options will be discussed with you by your provider during your appointments. You may also be recommended to
 participate in other forms of mental health care treatment.
- Nystrom does not offer after-hours services. If you have a concern, please contact us using FollowMyHealth or by
 calling your clinic. During business hours, your message will first be triaged through our Psychiatry Triage Nurse Team.
- If you have an emergency, such as severe suicidal thoughts, thoughts to hurt someone else, or a severe drug reaction, you should call 911, 988 (for suicidal thoughts), go to your local urgent care, or go to the emergency room.
- Minors must have a Legal Guardian present at all appointments for treatment. If a guardian fails to attend the appointment, it will be cancelled and rescheduled. It is strongly recommended that an adult who is not their own legal guardian have their legal guardian present for all appointments.
- Release of Information is required for our providers to establish and provide ongoing care. Please complete a Release
 of Information for your Case Manager, any Substance Use Treatment Services, previous Psychiatric care including
 psychiatric hospitalization records. Medical records are vital to maintaining continuity of care and allow us to verify
 past/current medical and medication history.
- If you are disrespectful to any staff (including but not limited to yelling, foul language, bullying or harassing) or if you disrupt the care of other patients, we may end care with you.
- You may be asked to only use one pharmacy and your provider may talk with the pharmacist about your medications.
- You will be asked to participate in having vitals taken at a Nystrom location for monitoring purposes. This includes Height, Weight, Blood Pressure, and Pulse.
- You will be considered an inactive patient and unable to receive medication refills through Nystrom & Associates if you have not attended an appointment with your medication provider in a 12-month period.

Medication Refill Requests:

- You should contact your pharmacy or use FollowMyHealth first for all medication refill requests.
- Refill authorizations can take up to 5 business days.
- Early Refills of Controlled medications will not be authorized.
- Refills of ADHD/Stimulant medication, controlled sleep medication, or benzodiazepine will not be issued outside of appointments.
- Your provider may not grant early refills for any reason (i.e. lost, stolen, damaged) for any controlled medication.

Appointment Scheduling and Cancelations:

- Patients are responsible for scheduling their next appointments to avoid running out of medications between office visits.
- Appointments canceled without a 24-hour notice may be assessed a fee.
- If you miss 3 appointments with your medication provider, we will end care with you. You will be ineligible to schedule ongoing care for 12 months following your discharge from care.
- Many of our providers work with medical or nursing students. You should inform your provider if you do not want a student participating in your appointments.
- Therapy appointments cannot be scheduled for the same day as psychiatric appointments.

Forms/Letters:

Our providers require an appointment to complete any forms. Any forms needing completion should be dropped off
at the front desk or uploaded to our website at www.nystromcounseling.com. Your provider will review the forms
and notify staff how long to schedule your forms appointment for. Any forms completed outside of an office visit will
be assessed a fee, requiring prepayment.

Laboratory & Psychological Testing:

- Your provider will request you complete certain laboratory tests before initiating or continuing certain medications. Laboratory tests may include but are not limited to; saliva, hair follicle, urine, blood serum, electrocardiograms, psychological testing, genomic testing, etc.
 - Drug Screens, laboratory tests, and counts of remaining pills may be requested if you are taking controlled medications and must be completed within a 48-hour period.
- Laboratory testing is not available at all Nystrom locations. Laboratory testing fees are your responsibility. If your insurance plan will not cover the cost of laboratory, psychological, or other testing, you will be responsible for all costs. incurred.

Billing and Insurance:

• A charge for psychotherapy in addition to a medication management billing code may appear on your billing statement. Psychotherapy is a standard psychotherapy add-on code that all Nystrom medication providers use to reflect psychotherapy services that occur in session. Psychotherapy is defined in Current Procedural Terminology (CPT) by the American Medical Association as "the attempt to alleviate the emotional disturbances, reverse or change maladaptive patterns of behavior and encourage personality growth and development" (2012).

Controlled Substance Medications:

- Patients are responsible for informing all other physicians of the controlled substance medication received through Nystrom & Associates. Likewise, patients will inform Nystrom & Associates medication provider of any other controlled substance medications received from another physician.
- Our providers may not prescribe standing doses of benzodiazepines with stimulant medications.
- Our providers must follow Nystrom & Associates prescribing and maximum dosing guidelines for controlled
 medications. If you are pregnant, have certain medical or psychiatric conditions, controlled medications may not be
 appropriate for you. If you are currently taking psychotropic medications, it is up to the clinical judgement of your new
 Nystrom & Associates Psychiatric Medication Management Provider whether they will continue them as they are
 currently prescribed.

Our providers do not prescribe pain medication or medical cannabis. If you are taking narcotic pain medication, medical cannabis, have a history of substance abuse, or are not currently sober, our providers may not prescribe controlled medications to you. If you are taking medical cannabis, methadone, suboxone or other any other narcotic-based medications on an ongoing basis, controlled medications may be stopped while you are taking these other medications.
 If you sell, trade, share, fill early, or increase the dose of controlled medications on your own, these medications will be stopped and cannot be restarted during the duration of your care at Nystrom & Associates.
 Failure to notify your provider of any history of drug, alcohol, or prescription drug misuse may result in stopping any controlled medications.
 You can be found guilty of Driving Under the Influence (DUI) if taking these medications and driving.
